# FINE FIRECLAY

BOCCHI brings back the ultimate material to your kitchen. Fireclay, a 100% natural and recyclable material, used by craftsmen for centuries to create timeless fixtures, has now returned to our kitchens.

Due to the specialized manufacturing process, which includes firing in kilns up to 2000 degrees Fahrenheit, fireclay becomes one of the most durable materials used in today's kitchen sinks. Their specialized glaze coating that is fused with the fireclay body during firing gives fireclay sinks a non-porous, uniform surface which will not scratch, rust or stain over time.

BOCCHI Fireclay Kitchen Sinks allow homeowners to compliment other furnishings and incorporate many different themes to showcase their creativity.

Whether you are considering a BOCCHI Farmhouse sink with its distinctive design and color personality as the epicenter of your dream kitchen, or selecting the timeless elegance of fireclay as an undermount or drop-in sink, BOCCHI kitchen sinks are truly crafted to match your desires and style.

# EXCLUSIVE BOCCHI COLORS

Color choices in the home create focal points, convey emotions and reflect our personal style.

Now BOCCHI gives you the opportunity to carry all these colors into your kitchen. You can create unique color stories in your home that balance the natural focal point created by your kitchen sink with the harmony created by your other finishes.

# SUPER SMOOTH SURFACE

Super Smooth Surface technology has been developed to minimize lime remains, undesirable dirt and bacteria on ceramic surfaces and make cleaning easier. This technology is the result of many years of research.

Super Smooth Surface is 19 times smoother and has less roughness than regularly glazed surfaces.

Test results show that super smooth technology provides a surface that has a higher quality than regular porcelain surfaces. Therefore, the Super Smooth Surface requires much less water to clean and is more hygienic.

## 19X SMOOTHER, 19X EASIER

# CLEAN+ TECHNOLOGY

Another innovative enhancement from BOCCHI is the Clean+ Technology. This technology helps you keep your kitchen sink always brilliant, clean, shiny and new.

Clean+ Technology decreases roughness so the contact angle of the ceramic surface can create a hydrophobic effect, which helps to prevent lime remains and undesirable dirt build up.

A smooth wipe and a mild cleaning would be sufficient to maintain the spark of your kitchen.

# BOCCHI ECO

BOCCHI takes great pride in producing our products with SUSTAINABILITY in mind. Our production processes and packaging are designed to minimize waste and reduce our carbon footprint. We only use sustainably sourced materials.

We believe that our customers should be able to enjoy high-quality products while knowing that they are doing their part for the environment.

# CLASSIC FARMHOUSE

There are distinct features of apron-front sinks that remind us of a simpler era. These utilitarian fixtures reflect a hard-working history as everything from spacious work spaces to bath basins for dogs and small children. No wonder they've long been an iconic element in traditional-style kitchens.

Classico Farmhouse sinks offer four different size options and wide selections of colors. Form fitting sink racks and strainers are included with each Classico Farmhouse Sink.

The classics are classic for a reason.

# RETROFITS MADE EASY

Nuova and Nuova Pro sinks make remodels a breeze with a specially designed short apron-front face featuring SMART-FIT™ technology. Cleverly designed to hide imperfections and alterations in the cabinets and countertops. The shorter faces also allow for use with standard base cabinets, while slanting back to the deeper depths farmhouse sinks are known for.

Nuovas feature a drop-in ledge with built-in faucet deck to hide old cuts or rough edges. While Nuova Pros allow you to choose from an undermount or drop-in installation without a faucet deck.

Form fitting sink racks and strainers are included with each Nuova Farmhouse sink. Additional accessories include cutting boards, roller mats and colanders.

# KITCHEN FAUCETS

FUNCTION & QUALITY ASSURED

All BOCCHI faucets use the finest components, from silky smooth ceramic cartridges to our anti-splash aerators at the end of each spout -- all are designed to improve the experience as well as the durability of using our faucets. These small things might not be immediately noticeable but they add up to bring to your home a great design, and to you a unique everyday experience.

## FUNCTION & QUALITY ASSURED

### AERATORS & SPOUTS & SPRAYS

All faucets use spouts aerators or flow straighteners to add actual air to the water which contributes to the protection of the environment. Every spray function spout is subject to a tough life-time test guaranteeing 10,000 times of usage. On top of that, each swivel spout tested solid for 50,000 times. These innovations in fluid technology keep your water flow in a controlled and distinctive pattern and eliminates splash back.

- 1.75 gpm flow rate
- Brass body
- 35mm Ceramic Cartridge (25mm on Tronto 2.0)
- Standard or Needle Spray (Belsena 2.0 features an extra boost for sprayer)
- 90° forward handle
- Weighted, nylon braided pull-down and goose neck hoses
- Extra-long (24") supply hoses
- 3.5" extended shank for easier installation on thick counters
- Comes with stabilizer flange to make installation easier on thinner counters

# WARRANTY & CARE

# THANK YOU FOR CHOOSING BOCCHI

Thank you for choosing BOCCHI. By doing so, you will enjoy the outstanding quality and durability of your new BOCCHI product for many years to come. All information in this guide is based upon the latest product information at the time of publication. At BOCCHI, we strive to fulfill our mission of improving the level of luxurious living for each person who is touched by our products and services. We reserve the right to make changes in product characteristics, packaging, or availability at any time without notice. Please take a few minutes to review this guide. Pay special attention to the care and cleaning instructions. Proof of purchase (original sales receipt) must be provided to BOCCHI with all warranty claims from a valid BOCCHI vendor. BOCCHI is not responsible for labor charges, installation, or other incidental or consequential costs. In no event shall the liability of BOCCHI exceed the purchase price of the product.

## **FIRECLAY, VITREOUS CHINA and GRANITE KITCHEN AND BATHROOM FIXTURES LIFETIME LIMITED WARRANTY**

BOCCHI warrants its fireclay fixtures, sinks, vitreous china toilet bowls, and granite sinks to be free of defects in material and workmanship during normal residential use for as long as the original consumer purchaser owns their home. Gloss reduction, scratching, staining, and acid or alkaline etching of the finish over time due to use, cleaning practices or water or atmospheric conditions are normal wear and tear. This warranty applies only to BOCCHI fireclay fixtures, sinks, vitreous china toilet bowls and granite sinks installed in the United States of America or Canada (North America). ## General Care and Cleaning Tips

**For best results, keep the following in mind when caring for your product:** Always test your cleaning solution on an inconspicuous area before applying it to the entire surface. Wipe surfaces clean and rinse completely with water immediately after applying cleanser. Rinse and dry any over-spray that lands on nearby surfaces. DO NOT allow cleansers to soak on surfaces. Use a soft, dampened sponge or cloth. NEVER use an abrasive material such as a harsh brush or scouring pad to clean any BOCCHI surface.

Success with cleaners and procedures is dependent upon such factors as the hardness and temperature of the water, exact measurements of ingredients, changes in cleaning formulas and the condition of the product being cleaned. Since there are variations within these factors, BOCCHI cannot guarantee the effectiveness of the formulas mentioned.

## Care & Cleaning Tips for Fireclay and Vitreous China:

Rinse thoroughly and use a soft cloth to wipe the product dry after each use. Soft abrasive cleaners may be used when necessary to clean BOCCHI fireclay and vitreous china fixtures. Strong abrasive cleaners should NEVER be used and may scratch or dull the surface. The appearance of surface marks and build-up of rust or other stains, minerals, etc. on the surface may be easily removed using recommended cleansers such as Bar Keepers Friend.

## Care & Cleaning Tips for Granite:

Rinse thoroughly and use a soft cloth to wipe the product dry after each use. Soft abrasive cleaners may be used when necessary to clean, strong abrasive cleaners should NEVER be used. To prevent limescale build-up leave a solution of warm water and white vinegar or a specific descaling/anti-limescale product for use with granite sinks, on the sink bottom for a few hours (or as directed)—then rub vigorously with a non-abrasive sponge until clean and rinse and dry sink.

## Care & Cleaning Tips for Faucets, Soap Dispensers, Chrome and Other Metal Surfaces:

DO NOT use cleansers containing ammonia, bleach or acid. Rinse thoroughly and use a soft cloth to wipe the product dry after each use. The ideal cleaning technique is to always blot dry any water from metal surfaces. Allowing water to evaporate on metal will form water deposits. It is important to use a dabbing action to dry metal, NOT an abrasive or rubbing action. Cleaning with a damp sponge or cloth and buff drying should keep your product looking beautiful.

## Care & Cleaning Tips for Sink Accessories:

Non-wood accessories may be cleaned using standard dish soap, or be washed in a dishwasher. It is important to thoroughly dry after each wash to maintain the best finish to each surface. Wood accessories should be thoroughly washed and dried after each use and never stored wet to prevent warping. Occasional application of a thin coating of food-grade oil to the wood surfaces will prevent them from drying out. Be sure to wipe off any excess oil after application.

**Care & Cleaning Tips for Bathroom Furniture:** To maintain your bathroom furniture, use a soft, damp cloth for gentle cleaning. After cleaning the surfaces, ensure thorough drying. Opt for mild cleaning materials or soapy water, while avoiding abrasive and acidic cleaners: test on an unexposed area before using. Be careful to

prevent contact extreme heat from styling tools etc. Avoid exposure to extreme temperatures and intense sunlight to prevent damage. Avoid moisture buildup to prolong the furniture's lifespan.
